A Safeguard. The fata rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should every prudent person to keep at hand, as a household remedy, a b AYER'S CHERRY PECTORAL. Nothing clas gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:

"Medical science has produced no other anodene espectorant so good as ATEN'S CHERRY PACTORAL. It is invaluable for diseases of the threat and longs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, well-known Dr. L. J. Addison, or Careagon, 118., who says:

"I have never found, in thirty-five years of continuous simily and paratice of medicine, any preparation of so great value as Avan's Chranar Pecronals, for treatment of discusse of the threat and lungs. It not only breaks up colds and curve severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered fo the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abundened, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it. such great use on the upper Mississippi steamers, has proved to be a great benefit

to pilots in looking for a landing in dark and crooked bends and at bridges, but it

has also proved to be a terrible nuisance attended with great danger when it is flashed in the face of a pilot on an ap-

proaching steamer, blinding him so com-pletely that he is unable to see anything

for some minutes afterward, losing almos complete control of his boat. Pilots, be
